PROFILE

I am an industrious and efficient worker, looking to pursue a career in software development. My skillset includes the ability to think logically, communicate clearly and work collaboratively and creatively as part of a team. I enjoy a challenge; I am also highly imaginative, finding inventive ways of tackling tasks and solving problems.

EMPLOYMENT HISTORY

St Bede's Inter-Church School, Cambridge, United Kingdom

September 2017 - July 2018

Teaching Assistant

As a Teaching Assistant at a state school for students aged 11-16, I worked alongside children with a variety of Special Educational Needs. My main role was to help students meet their academic potential and build strategies for facing the challenges of adult life. I also provided one-to-one English tuition for lower ability students.

TVF Media, London, United Kingdom

June - August 2016

Digital Media Intern

While working at TVF Digital, I wrote articles for the company website, organised and carried out a client-facing email campaign, prospected for new clients, conducted research for the company website's redesign, and attended a Neuro-Linguistic Programming course with NLP Dynamics. In the Online Post-Production department, I carried out quality control and technical checks on documentaries.
