Timetables

Possible socio-spatial effects

How are bus timetables set?

How do PTA professionals experience and reflect on timetabling?

- **“Best for most”**

Formal or informal norm? Where/how is this norm defined?

What are its socio-spatial effects? What about those outside the “flows”?

- **From proximity to speed**

What is the role of PT planning in the acceleration of pace of life?

- **Responsibility**

Who needs to adapt? PT timetables, opening times or people?

- **Complaints as a source of knowledge**

Whose complaints have an impact? Whose knowledge is taken into account?
