

## Urban rainwater harvesting from niche to mainstream: challenges and opportunities for planning

How can we manage rain in future cities? What can we learn from examples in Barcelona, Berlin and Stockholm? What challenges and opportunities defined by practitioners in Stockholm? What are the experiences in UK?

WELCOME to the concluding seminar for UrbanRain research project where the results from Barcelona, Berlin and Stockholm on “**Urban rainwater harvesting from niche to mainstream: challenges and opportunities for planning**” will be presented.

Date: Thursday, March 16, 14.00 – 17.00

Place: **Openlab**, Valhallavägen 79, 114 27 Stockholm **Click here to see the map**
