

Wireless Infrastructure Deployment and Economics (Course IK2514)

Course Overview, November 2014
Jan Markendahl, Cos/ICT/KTH

Agenda today

- Why this course? Your expectations?
- Course overview, course objectives
- KTH Social and the schedule
- About part 1 of the course and homework 1
- About part 2 and 3 of the course
- Lecture: Actors & roles at the telecom market
 - A small exercise

Wireless Infrastructure Deployment and Economics (Course IK2514)

Jan Markendahl COS/ICT

Associate Professor

Wireless Infrastructure Deployment and Economics

The course consists of three parts

- Telecom Markets and Regulation
- Mobile Operator Business
- Wireless Broadband Network Deployment and Economics

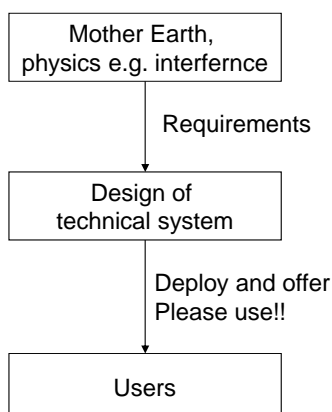

The course is about "How to":

- Organize telecom markets
- Run a operator business and make money
- Dimension, design & analyze mobile broadband networks

2014-11-03

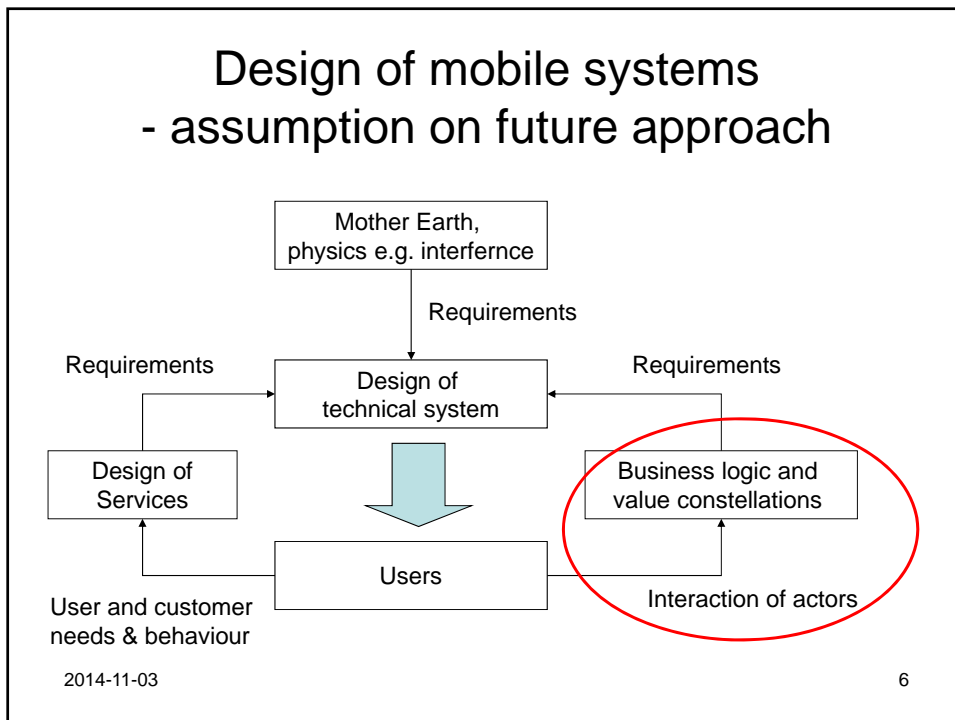

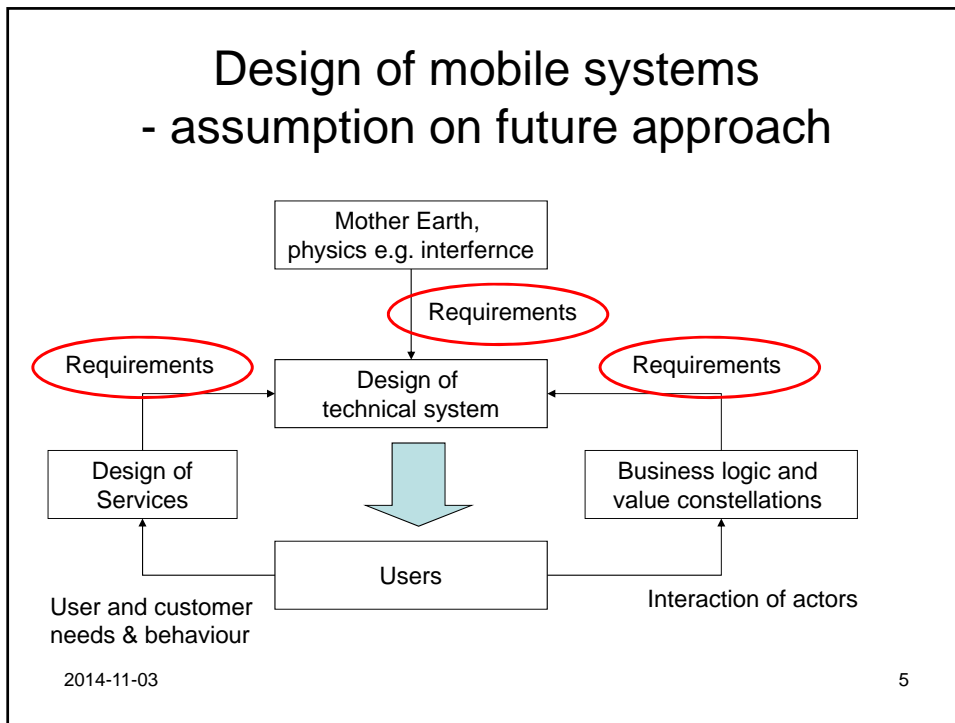

3

Design of mobile systems - traditional approach

2014-11-03

4

Overall objectives and learning approach

The overall objective

- To enable students to design, model and analyze technical systems in an overall business context

Learning approach

- A strong focus is put on “learning by doing” with home works, reviews, seminars and a operator game
- Guest lecturers to give different perspectives
 - Regulator
 - Financial market
 - Manufacturers
 - Mobile operators
 - Internet companies
 - User and pricing

2014-11-03

9

Course objectives

After the course the students should be able to:

- Analyze telecom markets in terms of actors, market segments, services, regulation + identify differences
- Describe the key characteristics of a Mobile Network Operator and identify strengths and weaknesses
- Dimension and design of a wireless network given demand, spectrum and radio access technologies
- Model and analyze the cost structure of a mobile operator network and compare different solutions

2014-11-03

10

Homework and operator game

- Three homework assignments
 1. To analyze the telecom market in a country
 2. To compare business strategies of two mobile operators in a country
 3. To dimension and make an overall networks design and make cost and capacity trade-offs
- To do reviewing
- Mobile operator game
 - A business game where operators compete year 0 - 6(8)
 - A full day exercise where 3-4 students is the mgmt team

2014-11-03

11

Course overview

- Course content
- Course objectives
- Learning approach
- Agenda, lectures and lecturers
- Home work assignments
- The mobile operator game
- Examination and credits

2014-11-03

12

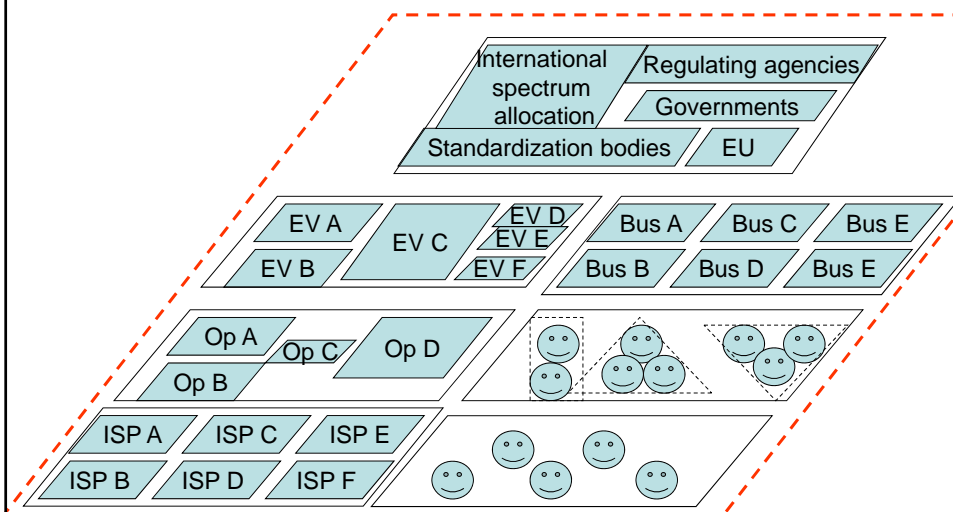

Course Content

- The course consists of three parts
- Telecom Markets and Regulation
 - Mobile Operator Business
 - Wireless Broadband Network Deployment and Economics

2014-11-03

13

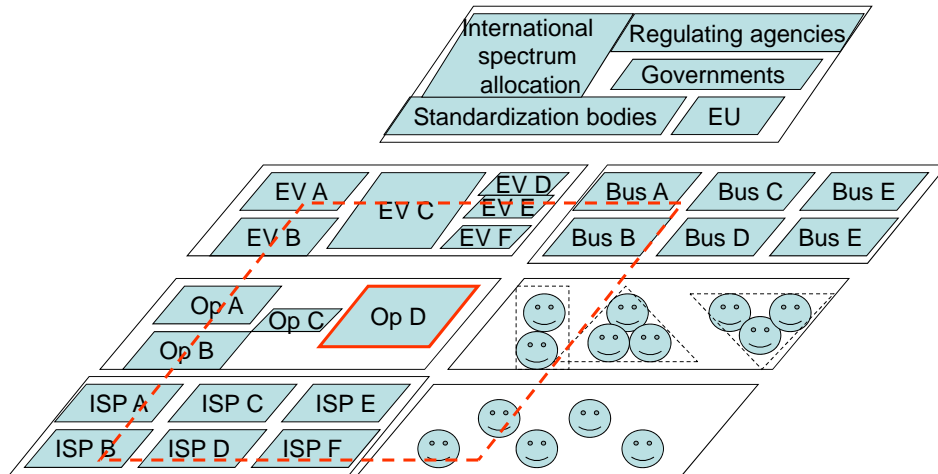

Part1: Telecom Markets and regulation

2014-11-03

14

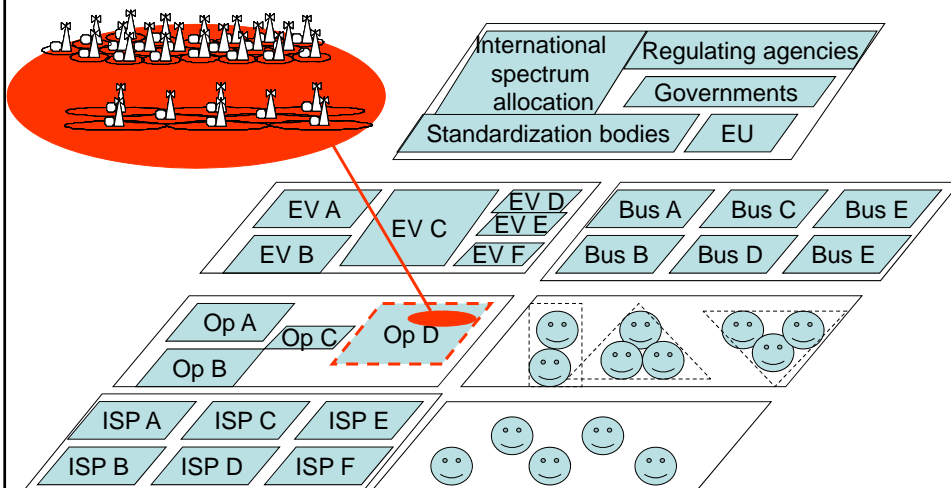

Part 2: Mobile operator business

2014-11-03

15

Part 3: Network dimensioning, deployment and cost structure analysis

2014-11-03

16

Learning Approach

- A strong focus is put on “learning by doing” with home works, seminars and a operator game
- Motivation
 - The course covers a multitude of architectures, concepts, methods and tools within both wireless technology as well as areas of economics and business.
 - Each concept, solution etc may not be so complex or difficult to understand, but the combination of all aspects leads to a very high degree of complexity.

2014-11-03

17

Part 1: Telecom Markets and regulation

- Market structure, type of actors and business relations at telecom markets
- Telecom regulation, regulated markets and services, Spectrum allocation and licensing;
- Operator competition and cooperation, Mobile operator strategic planning
- **Home work 1:** Country study -description and analysis of the telecom market in country X

2014-11-03

18

Part 2: Mobile operator business

- Overview of operator business; marketing, customer management, charging & billing
- Cost structure, financing, investments and risk, revenue streams, pricing and subscriptions
- Operator challenges for mobile broadband, the revenue gap, capacity & coverage, data rate
- **Home work 2:** Analysis of operator strategy
- **Mobile Operator Business game** session (1 day) and preparation and summary report

2014-11-03

19

Part 3: Network dimensioning, deployment and cost structure analysis

- Economics of wireless infrastructure, cost-capacity trade-offs, scalability, spectrum allocation
- Network dimensioning, deployment and configuration strategies, impact of user demand
- Cost structure modeling & analysis of network, to calculate CAPEX, OPEX, Net present value
- **Home work 3:** Dimensioning and high level design of a wireless network incl. cost structure analysis

2014-11-03

20

About home work assignments

- **Homework 1 task:**
 - Describe the telecom market i country X in terms of key actors and their characteristics
 - Identify problems and challenges for key actors
- **Homework 2 task:**
 - Compare business strategies of two mobile operators in "your" country
 - Find data on the business performance and operator strategy in order to be able to make a comparison
- **Homework 3 task:**
 - Dimensioning of a radio access network and analysis of the cost structure for different deployment options and types of used Radio Access Technologies (RATs).
 - The analysis will be done for a specific scenario with a set of user and traffic data and different RAT's)

2014-11-03

21

To pass home work assignments 1 and 2

- To do a draft report and send for review
 - Max 4 pages in total
- Review the reports of student in the group
- Present review comments in group session
- Make a oral presentation of results
 - Max 5 minutes and 2 slides
- Attend the presentation seminar
- Revise report according to the review comments and submit a final version

2014-11-03

22

Examination and grading

- In total the home works and the problems can give 30 points (3*5points + 5*3 points).
 - Each home work will be graded with 0 to 5 points and these points are included in the points at the exam.
 - At the exam there will be five problems to solve; each problem can give maximum 3 points.
- To pass the course
 - All home work assignments are satisfactory (3-5 points)
 - In total 12 points are required (grade E)
- Credits
 - 7,5hp = 5 weeks of full time work distributed over 9 weeks

2014-11-03

23

Course outline and timing

- Part 1: start 3/11
Telecom Markets and Telecom regulation
- Part 2: start 18/11 (game session 10/12)
Mobile operator business
- Part 3: start 24/11
Network dimensioning, deployment and configuration and cost structure analysis
- Written exam: 13/1, 2015

2014-11-03

 KTH Social

24

Lectures & seminars – part 1, week 1

- November 3; 13-15 (Jan Markendahl, KTH)
 - Course overview, Intro to telecom actors and roles
- November 4; 10-12 (Jan Markendahl, KTH)
 - More on actors and roles, ecosystems,
 - Telecom markets from the end-user perspective
- November 5; 10-12 (Bengt Mölleryd, PTS)
 - Development of telecom markets
 - Regulation and liberalization
- November 6; 10-12 (Bengt Mölleryd, PTS)
 - Telecom and spectrum regulation
 - Role of regulator and examples of regulated markets

- November 07; 18.00
 - > Submit draft HW1 report

2014-11-03

25

Lectures & seminars – part 1, week 2+3

- November 10; 13-15 (Student groups, no teacher)
 - Review seminar, discussions in student groups
 - November 11; 15-17 (Jan Markendahl, KTH)
 - Country studies, examples of regulation, competition, etc
 - Q&A session for Home work 1
 - November 12; 10-12 (Jan Markendahl, KTH)
 - More on mobile services
 - Cases on mobile media, mobile payments, IoT services
 - November 13; 10-12 (Jan Markendahl, Ashraf Widaa, KTH)
 - More on operators and spectrum
 - Non European country cases
 - November 17, 13-15 (Students)
 - Oral presentations of Homework 1
- November 18; 7.59
-> Submit final HW1 report

2014-11-03

26

The homework assignments tasks

- Homework 1 task:
 - Describe the telecom market in country X in terms of characteristics of key actors
 - Identify problems and challenges for the identified key actors
- Homework 2 task:
 - Compare business strategies of two mobile operators in "your" country
 - Find data on business performance and operator strategy in order to do a comparison
- Homework 3 task:
 - Dimensioning of a radio access network and analysis of the cost structure for different deployment options and types of used Radio Access Technologies (RATs).

**For HW1 and HW2:
Report no more than 4 pages in total
2 slides for a 5 min presentation**

2014-11-03

27

Home work 1 deadlines 2014

Activity	Home work 1
Home work is assigned to each student	13-11-04 ; 12.00
Draft report sent to teacher & reviewers filename: "country"_HW1_1.doc	13-11-07; 18.00
Review comments sent to teacher and authors filename: "country"_HW1review_by"name"	13-11-10; 10:59
Review session and discussions in review groups (room 208 available, no teacher present)	13-11-10; 13:00-15:00
Send slides for oral presentation to teacher filename: "country"_HW1.ppt	13-11-17; 07:59
Oral presentation of HW1 Each review group will present together	13-11-17 ; 13:00-15:00 (16:00) Max 5 min per country
Send final report version to teacher filename: "country"_HW1_2.doc	13-11-21; 11:59
Feedback and HW grading send to student	13-11-28; 12.00 latest

For you to do today

- Sign list of presence, contact data
- If not done - Select course in Daisy
- If not done - Send e-mail to me, janmar@kth.se
 - Your expectations on the course
 - Your home country, other countries you have lived in language you control besides english
 - Experiences that may be useful for the course

2014-11-03

29

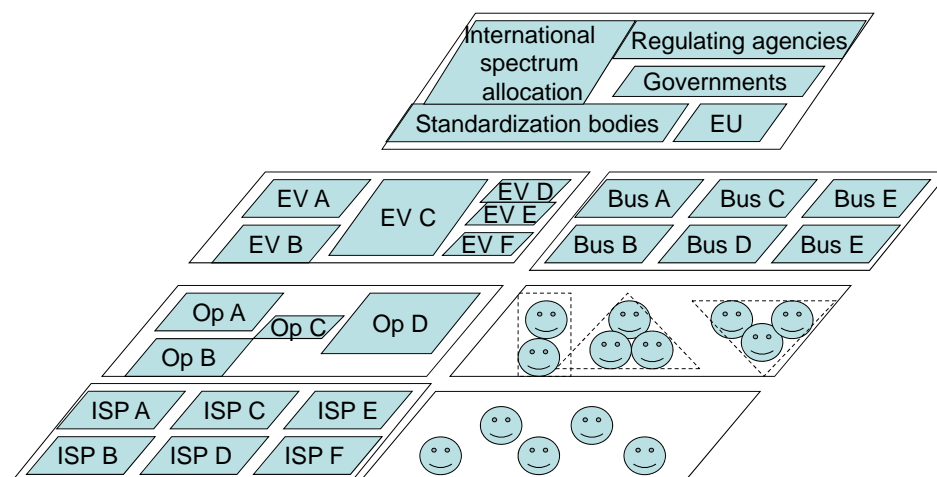

About actors at the telecom market

- Users
 - Consumers, business users, enterprises
- Equipment vendors
 - Networks, subsystems, handsets, laptops
- Operators
 - Fixed and Mobile, Broadband, MVNO's
- Providers of different kinds of services
- Regulators, standardization bodies

2014-11-03

30

Example of actors on the telecom market

2014-11-03

31

About actors at the telecom market

- There are many types of actors at the market and many actors within each type of actors
- We will run a small exercise on actors that you can identify
- Two scenarios
 1. A user of a smartphone
 2. A user with a WLAN enabled laptop

2014-11-03

32

Exercise on actors that you can identify

Task 1: A user of a smartphone

Task 2: A user with a WLAN enabled laptop using hot spot where you need to pay

- Find as many actors as possible
- Write name of each actor at a "post it" note
 - Real names: Ericsson, Telia, Nokia, Dell,
 - Think "here and now" in Stockholm area
- Work in groups for another 10 minutes
- Then put notes on the board

2014-11-03

33

About actors and business

2014-11-03

34
