

27 point reviewer:

fixed: typo "log-term memory"

fixed: inconsistent spacing in references: maas et al[16] -> maas et al [16]

fixed: reference to 1508.01211 paper for a better end-to-end, non-CTC model.

fixed: added reason why we used LibriSpeech

26 point reviewer:

rejected: "should show how results improve between described papers"

note: will not fix since it seems to fit more the scope of literature study

fixed: reference to naïve encoding (greedy approach)

fixed: specification: no normalization (zero mean unit variance) in "preprocessing"

fixed: added suggestion for regularization to avoid overfitting in discussion

22 point reviewer:

fixed: most, if not all points in this thorough review have been improved on
