Specific prerequisites

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The objective of this course is to apply acquired knowledge in a problem-based project.

Course contents

Students in this course work with students from AE2001 Project Environmental Engineering in interdisciplinary teams on a problem-based project. The students in this course will particularly contribute with expertise related to natural sciences. Each of the teams:

- identifies a specific task which contributes to the overall project.
- collects relevant information that is needed to analyse the identified problems and possible solutions
- prepares a proposal for the solution of the problems that were identified.

Parallel with the project work seminars will be offered on specific themes related to the project. Study visits to the study area and the authorities involved in the planning and development of the areas will be organised.
