Education cycle

First cycle

Main field of study

Technology

Specific prerequisites

Students enrolled in the Degree programme in Civil Engineering and Urban Management and students enrolled in the Bachelor's programmes in Real Estate and Finance and Property Development and Agency at KTH should have completed Economics (AI1107) or Economics of the Built Environment (AI1128).

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The course aim is to provide basic theoretical and practical knowledge about investment analysis, with emphasis on real estate.

The course should give you knowledge in:

- Identify and explain the basic steps in the investment process.
- Derive and understand the origin of the major formulas used in present value calculations.
- Evaluate different investment alternatives.
- Define and compute different return measures.
- Deal with risk and uncertainty applying sensitivity analysis.
- Understand how leverage affects investments.
- Develop Excel spreadsheets for investment decision-making.

Course contents

The course contains the following parts:

- Capital budgeting. The aim is to provide advanced knowledge in theory and methods for asset valuation and profitability analysis of investments and decision criteria in capital budgeting such as present value and internal rate of return etc.
- Cash flow analysis of complex investments with emphasis on property applications. Analysis of financing decisions.
- Project work: making a cash flow analysis in Excel.

Disposition

Lectures and teacher-assisted group exercises. Some group exercises take place in a computer lab. The students shall also, in groups, construct a cash flow proforma in Excel and present this work for the teachers under given assumptions. Students will be divided into working groups by the headteacher.

Course literature

Jonathan Berk & Peter DeMarzo -Corporate Finance (Pearson International Edition), senaste upplaga.

Jonathan Berk & Peter DeMarzo -Corporate Finance (Pearson International Edition), latest edition.
