Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

This course will provide insights into the central issues in the real estate body of knowledge.

After the course, students will be able to:

- Explain the nature of the real estate asset
- Describe and analyse how the building process in Sweden has developed and factors that explain this development
- Explain the relationship between the rental and real estate markets
- Use theories of urban growth to explain the nature of cities
- Explain the nature and uses of real estate market analyses as well as real estate valuation
- Explain the determination of rents for residential and non-residential housing in Sweden
- Describe and analyse how property taxes are set in Sweden from a theoretical and practical perspective
- Explain the nature and interrelationships between the financial sector and the real estate market
- Explain and perform calculations on different types of real estate lending

Course contents

Insights into the central parts of the real estate body of knowledge

Course literature

D. Geltner – N. Miller: Commercial Real Estate Analysis & Investments

Fastighetsekonomisk analys och fastighetsrätt - Fastighetsnomenklatur

Examination

- PRO1 - Project, 3.0 credits, grading scale: P, F
- TEN1 - Examination, 4.5 credits, grading scale: A, B, C, D, E, FX, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.
