

FAH3460 Topics in Transport Science, Part 1 3.5 credits

Transportvetenskapliga frågeställningar del 1

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for FAH3460 valid from Spring 2013

Grading scale

Education cycle

Third cycle

Specific prerequisites

Enrollment in doctoral program, having done ones literature review or equivalent.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

The course helps doctoral students to situate themselves in the broad field of transport science. The students obtain broad knowledge through overview lectures and interact on more detailed topics in seminars, taking various roles (presenter, opponent, listener).

Course contents

Overview lectures covering the broad field of transport science. Participation in scientific seminars offered at the department of transport science. Participation in national and international conferences.

Course literature

Seminar-specific

Examination

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Participation in overview lectures: 1 ECTS

Seminar presentation, opposition, participation: 2.5 ECTS

Other requirements for final grade

Documented seminar attendance prior to the establishment of this course can be accounted for.

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
