

HM1009 Industrial Design with Colour and Craft 7.5 credits

Industridesign med färg och form I

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

Establishment

Course syllabus for HM1009 valid from Autumn 2007

Grading scale

P, F

Education cycle

First cycle

Main field of study

Mechanical Engineering, Technology

Specific prerequisites

Basic engineering methodology.

Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

Intended learning outcomes

Course contents

- The role of industrial design in the product development process.
- The making of simple models in the product development process.
- Anatomy and human scale sketching.
- Freehand sketching, perspective, sculpture, and painting.

Examination

- PRO1 - Project, 3.0 credits, grading scale: P, F
- ÖVN1 - Exercises, 4.5 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

Other requirements for final grade

Project work (PRO1; 4,5 cr.). □
Exercises (ÖVN1; 3 cr.).

Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
