

# SA2003 Sustainable Development in Engineering Physics 1.5 credits

Hållbar utveckling inom teknisk fysik

This is a translation of the Swedish, legally binding, course syllabus.

If the course is discontinued, students may request to be examined during the following two academic years

## Establishment

The course syllabus is valid from Fall 2024 according to the school principal's decision: S-2023-1678 Decision date: 2023-10-16

## Grading scale

P, F

## Education cycle

Second cycle

## Main field of study

Engineering Physics

## Specific prerequisites

Completed degree project on Bachelor level with major in technology.

## Language of instruction

The language of instruction is specified in the course offering information in the course catalogue.

## Intended learning outcomes

## Course contents

## Examination

- REF1 - Reflection, 0.5 credits, grading scale: P, F
- SEM1 - Seminars, 1.0 credits, grading scale: P, F

Based on recommendation from KTH's coordinator for disabilities, the examiner will decide how to adapt an examination for students with documented disability.

The examiner may apply another examination format when re-examining individual students.

## Ethical approach

- All members of a group are responsible for the group's work.
- In any assessment, every student shall honestly disclose any help received and sources used.
- In an oral assessment, every student shall be able to present and answer questions about the entire assignment and solution.
